SE DÉPLACER

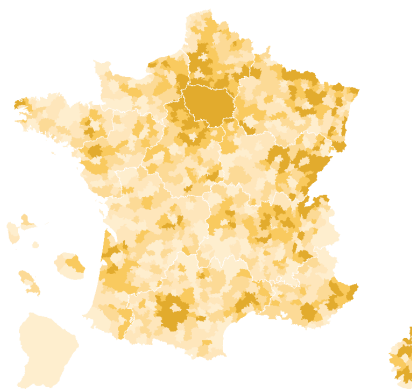

Temps de transport pour aller au travail

Quelle part d'actifs travaillent à plus de 30 minutes de leur domicile ?

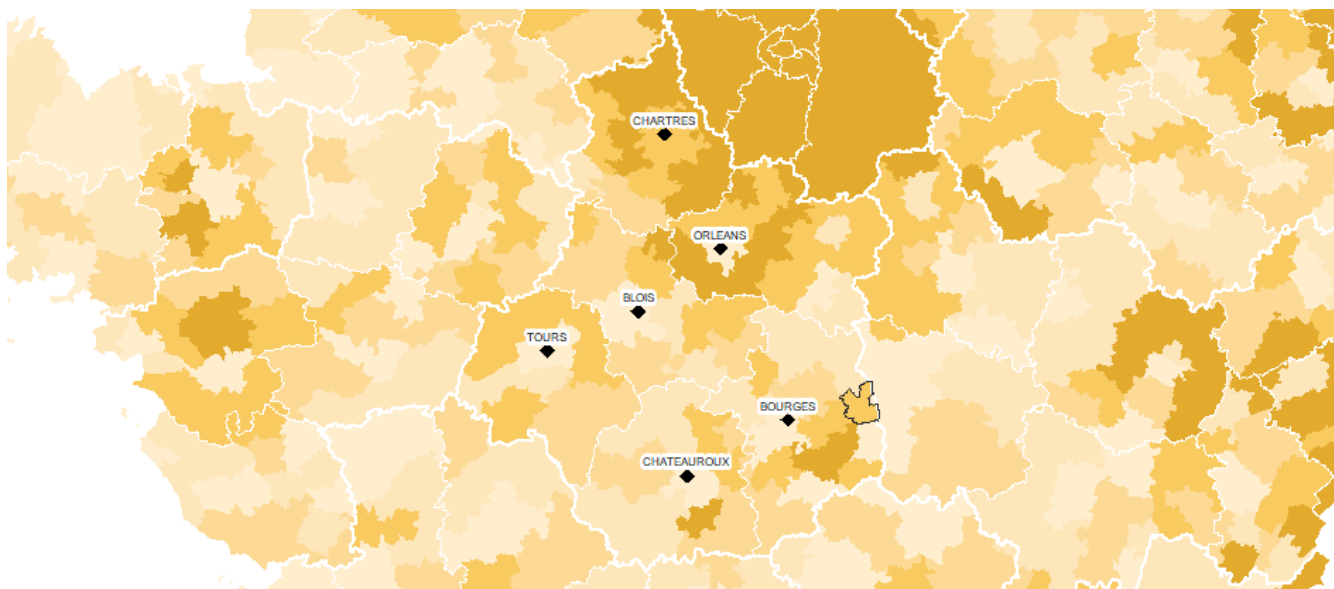

La part des actifs travaillant à plus de 30 minutes de chez eux (temps théorique par la route) mesure l'accessibilité à l'emploi. Une valeur élevée de cet indicateur est révélatrice d'un déficit d'emplois sur le territoire de résidence.

Part des actifs occupés travaillant à plus de 30 minutes de leur lieu de résidence en 2014

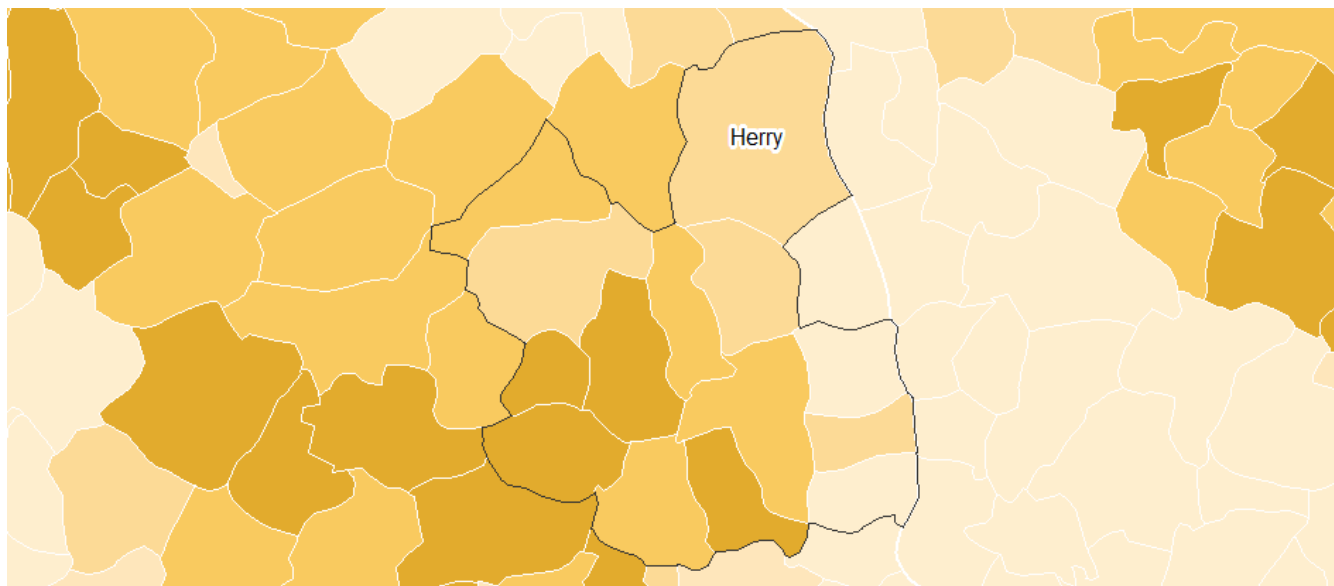

En % • Valeur France : 26,3%

SE SOIGNER

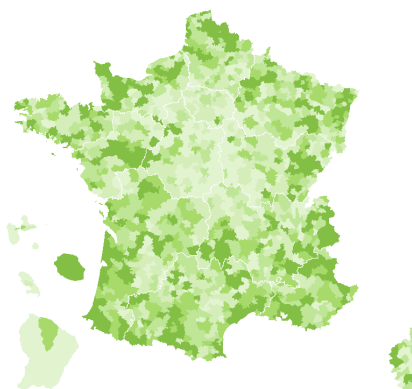

Accès à un médecin généraliste

Quel est le niveau d'accès des habitants à un médecin généraliste ?

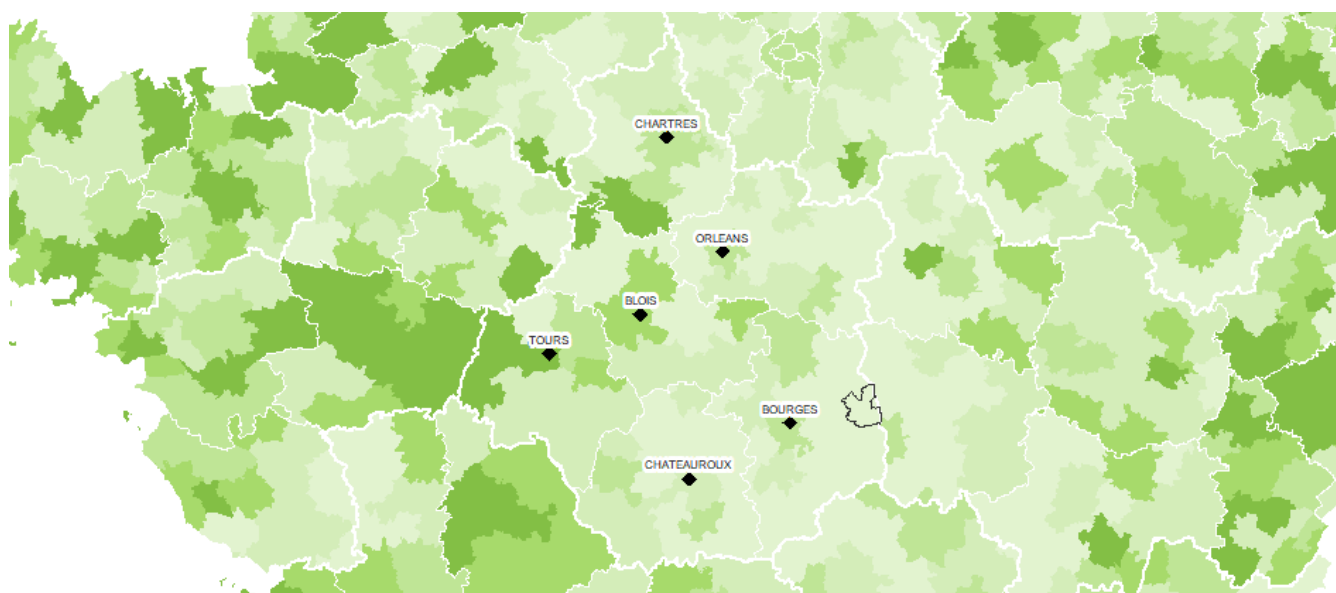

On utilise l'indicateur de l'Accessibilité Potentielle Localisée, disponible au niveau communal, en tenant compte de l'offre et de la demande de soin. Elle est calculée en fonction du niveau d'activité des professionnels en exercice et de l'âge de la population.

Accessibilité potentielle localisée (APL) aux médecins généralistes en 2015

UTILISER INTERNET

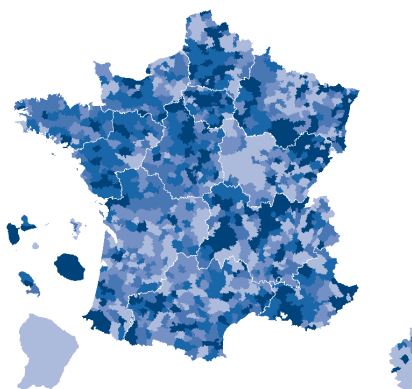

Accès à internet en Très Haut Débit

Quelle part des locaux sont éligibles au Très Haut Débit ?

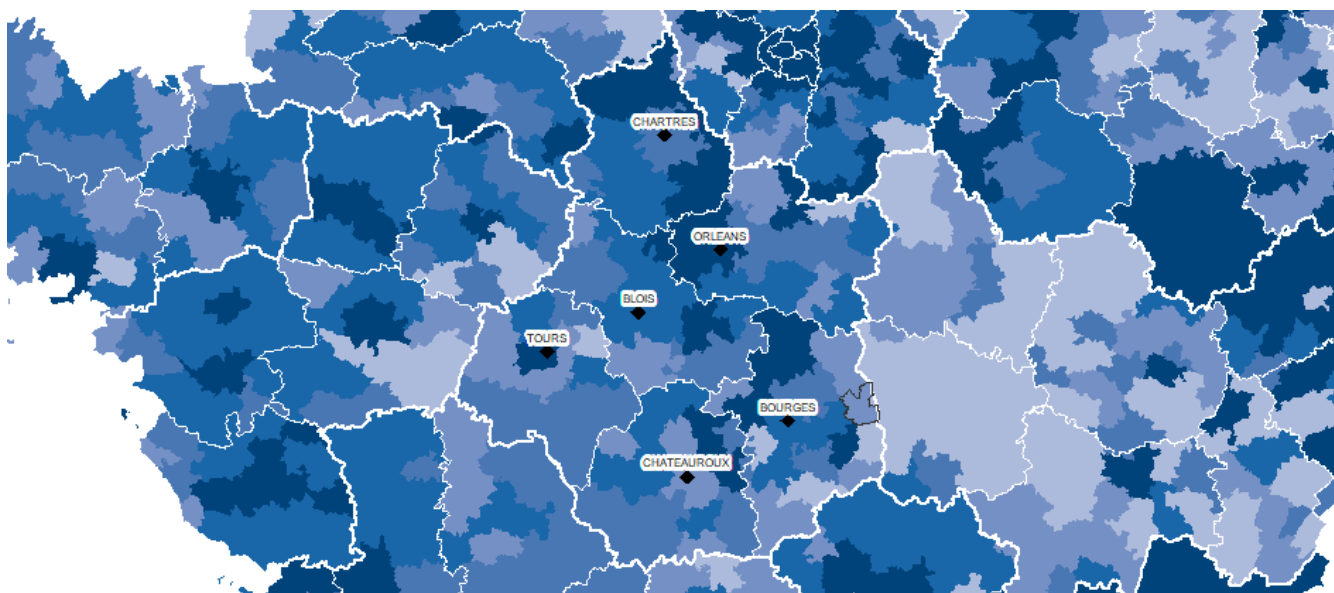

La part des locaux éligibles au Très Haut Débit mesure la proportion de logements et de locaux professionnels pouvant, sous réserve d'un abonnement adéquat, bénéficier d'une connexion internet avec un débit descendant supérieur à 30 Mb/s. Ce débit est une valeur théorique, qui correspond au débit maximal que la ligne peut effectivement atteindre.

Part des locaux éligibles toutes technologies à un débit supérieur à 30 Mb/s en 2017

S'INSÉRER

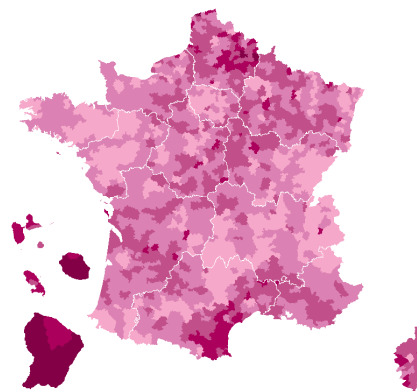

Jeunes ni en emploi, ni scolarisés

Quelle est la part des jeunes non insérés ?

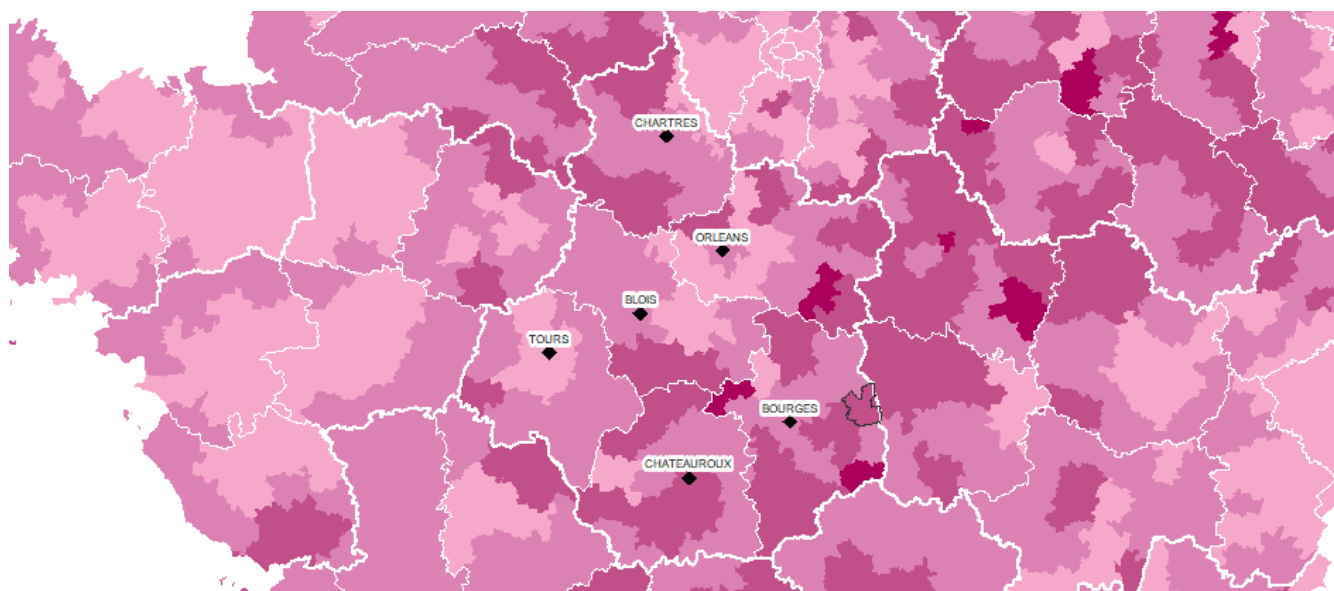

On désigne sous le terme de jeunes non insérés les 15-24 ans qui ne sont pas inscrits dans un établissement d'enseignement secondaire ou supérieur et n'ont pas d'emploi, fût-il occasionnel. La part de ces jeunes en dehors de tout parcours scolaire ou professionnel permet d'apprécier les difficultés d'insertion de la jeunesse dans la société et l'émergence de situations de précarité.

SE CULTIVER

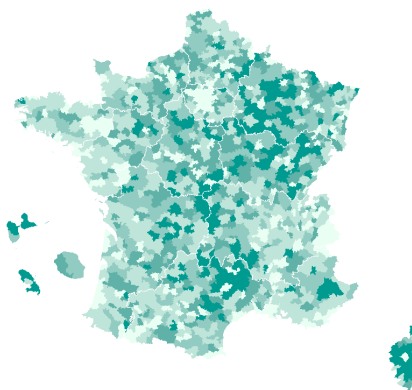

Temps d'accès à un cinéma ou un théâtre

Quel temps d'accès à un cinéma ou à un théâtre ?

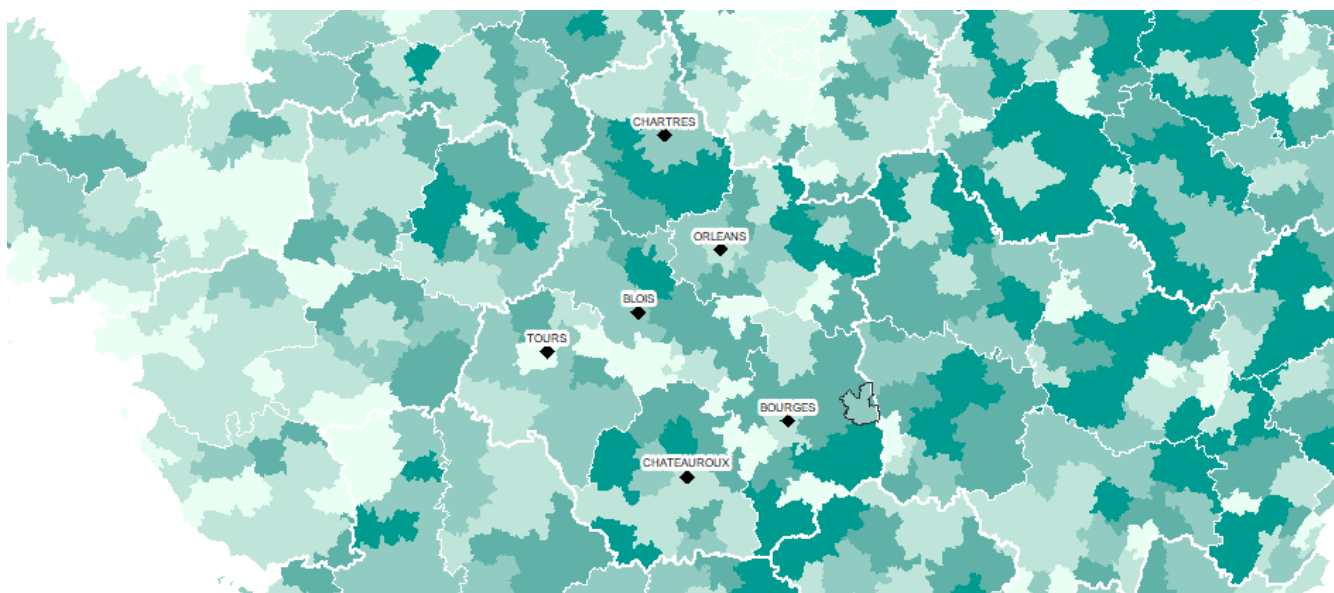

Les cinémas et les théâtres sont des équipements structurants de la vie culturelle des Français, pour lesquels ils acceptent de parcourir plusieurs kilomètres. L'indicateur présenté ici ne considère que la présence de bâtiments dédiés à un cinéma ou un théâtre. Il ne prend pas en compte d'autres formes de services comme les compagnies de théâtres ou les circuits de cinémas itinérants.

TRAVAILLER

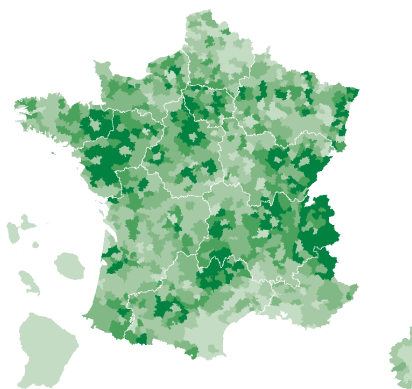

Personnes en emploi parmi celles en âge de travailler

Quelle part de la population en âge de travailler a un emploi ?

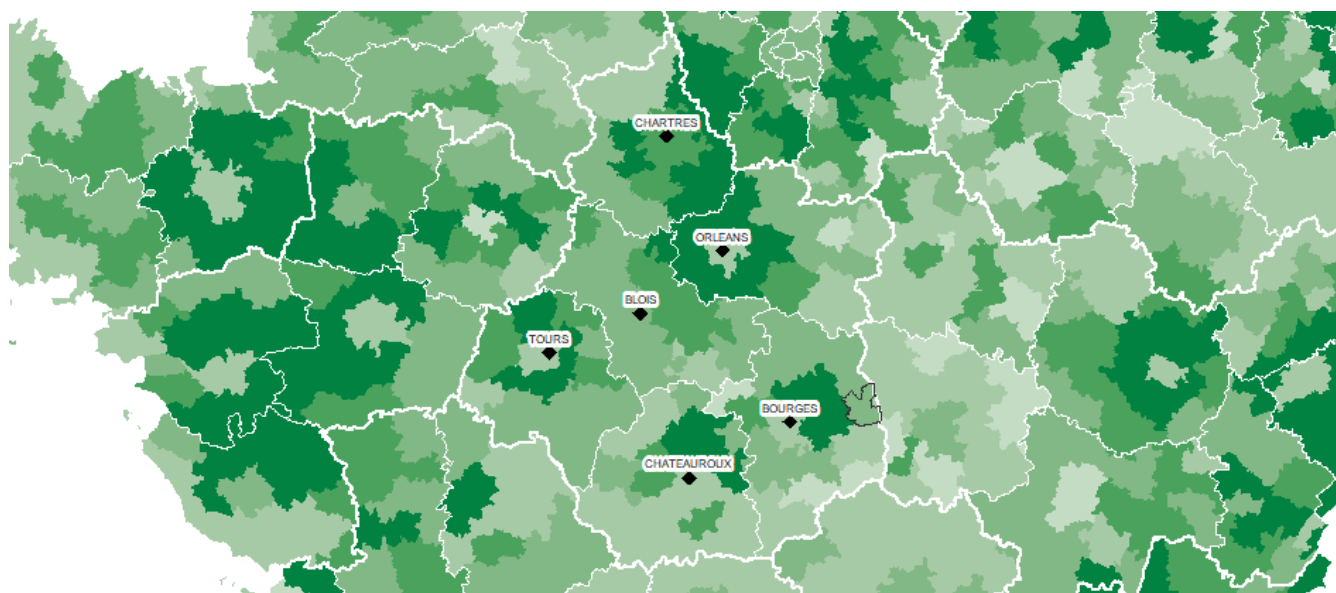

Le taux d'emploi est calculé en divisant le nombre de personnes ayant un emploi par la population en âge de travailler (15-64 ans). Il mesure la possibilité pour les personnes de trouver un emploi et la capacité d'un système économique d'utiliser les ressources de main-d'œuvre disponibles.

SE LOGER

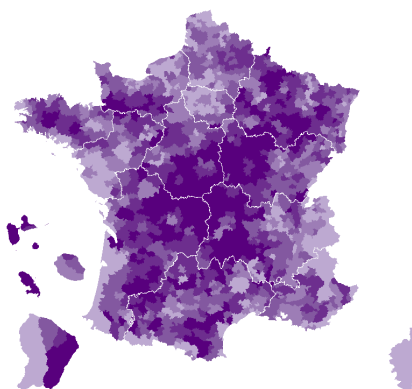

Logements vacants

Quelle est la part des logements vacants ?

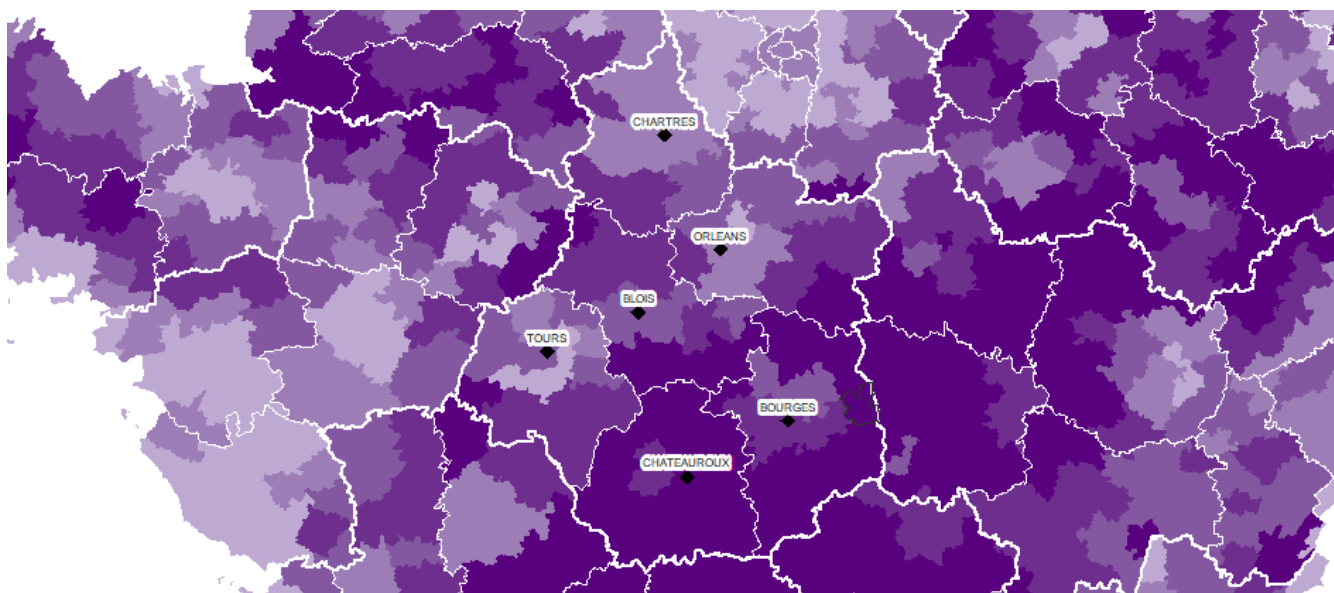

Un logement vacant est un logement inoccupé (proposé à la vente ou à la location, en attente de règlement de succession,...). Le taux de vacance, calculé à partir du recensement de la population, est la part des logements vacants dans l'ensemble des logements. La répartition des logements vacants traduit en partie le manque de dynamisme et d'attractivité de certains espaces.

Part des logements vacants en 2015

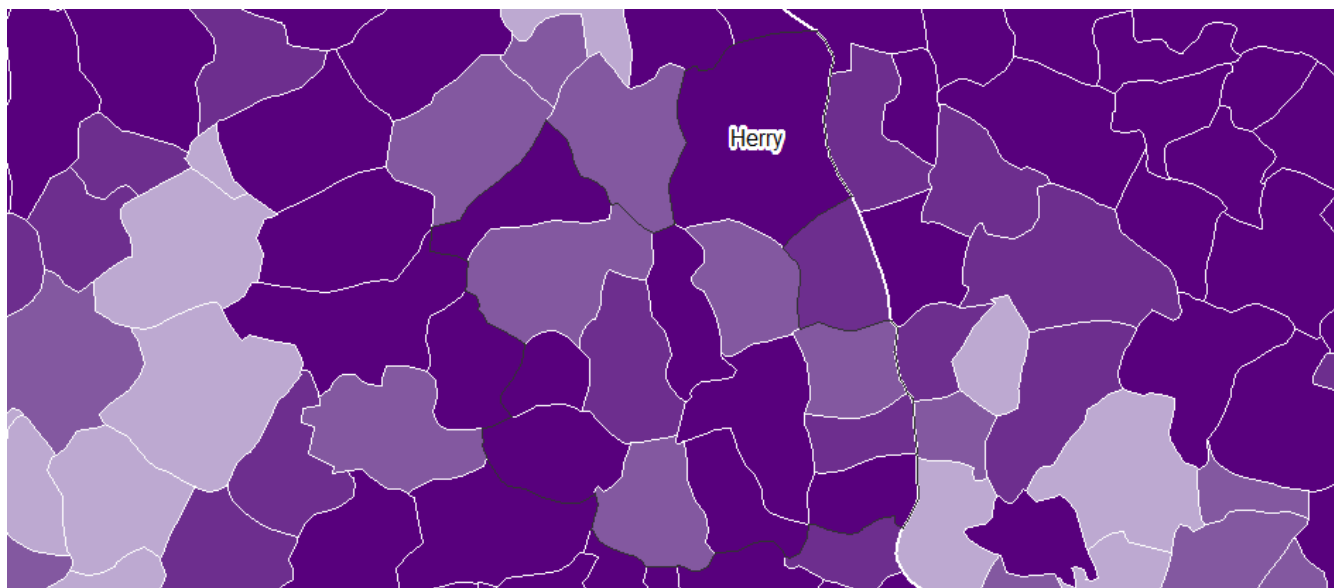

En % • Valeur France : 8,0%

NIVEAU DE VIE

Revenu disponible médian des ménages

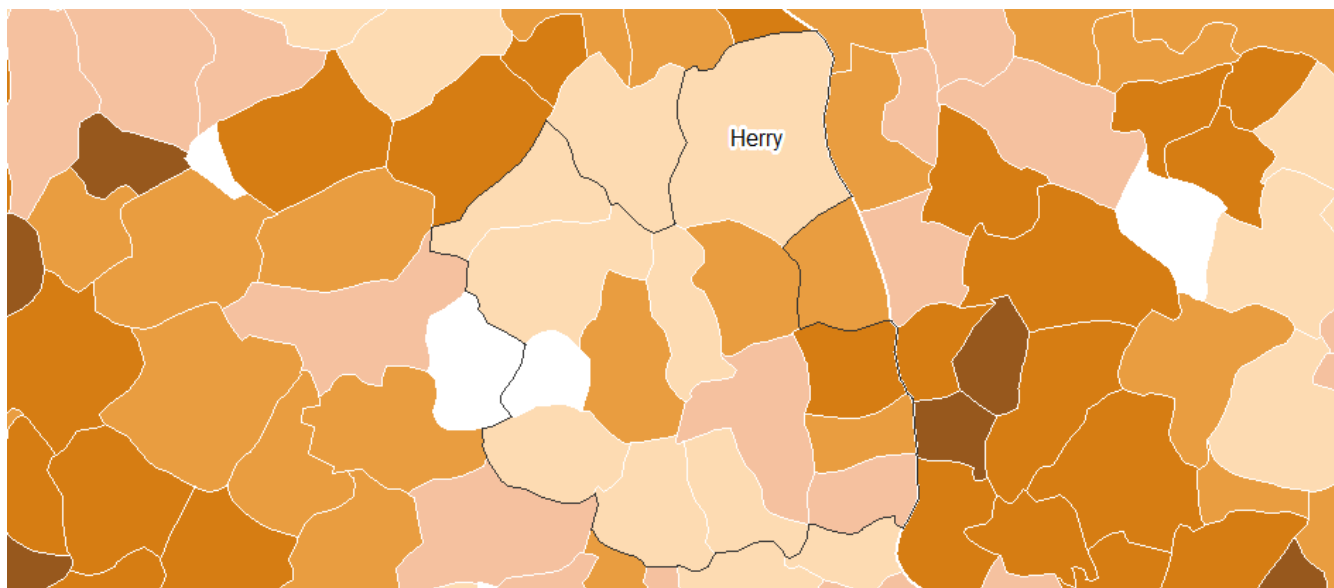

Quel est le niveau de vie médian des ménages ?

Le niveau de vie des ménages est mesuré par le revenu disponible par Unité de Consommation. Le revenu disponible comprend le revenu fiscal et les prestations sociales nets des impôts directs. Les Unités de Consommation sont un système permettant de tenir compte de la taille des ménages mais aussi de l'âge des enfants. Les données sont soumises au secret statistique pour les communes de moins de 50 ménages et de 100 personnes.
